

KoboMica S-25

Mica can be used in a variety of applications, including emulsions, hot pours, and powders found in Skin Care, Color Cosmetics and Toiletry products. Mica contributes to a finished product by adding bulking properties, an enhanced skin feel, luster, shimmer, shine and often times sheen while helping to fill in the lines on the skin.

KoboMica S-25 offers superior performance and strict particle size control (22-26µm). It contains very thin, flat and smooth surfaces. KoboMica S-25 offers exceptional transparency,

good sheen and coverage. This cost-effective Mica is also offered with Kobo's surface treatments listed in the chart below.

Kobo Surface Treatments Available

	Treatment	Properties
Silicone Treatment	Silane (11S)	Silane treatment exhibits zero hydrogen potential and maximum water repellency.
	Methicone (MS)	Methicone treatment has excellent hydrophobicity.
Lipophilic Treatment	Titanate (I)	Kobo's patented Titanate treatment is highly lipophilic and approved for use globally.
	Magnesium Myristate (MM)	Magnesium Myristate treatment has a creamy feel and is hydrophobic.
Hybrid Treatment	Crosspolymer (TTB)	Superdispersible treatment that wets out in oils, esters, silicones and hydrocarbons.
	Titanate/Amino Acid (ASI)	Good dispersability in silicones and esters, while offering smooth feel and uniform adhesion on the skin.
Hydrophobic/Lipophobic Treatment	Perfluoroalcohol Phosphate (PF)	This treatment is both hydrophobic and lipophobic. This treatment will give long lasting wear and a natural finish.
Natural Treatment	Jojoba Esters (NJE)	Hydrophobic, while offering creamy feel and good adhesion to the skin.
	Carnauba Wax (CW)	Gives creamy feel and good adhesion to the skin, while improving pressability.

Mineral Powder Featuring KoboMica S-25

Formula KPW-012B

Part 1

• KoboMica S-25 - Kobo Products: Mica	51.45%
• MPT-154-NJE8 - Kobo Products: Titanium Dioxide (And) Alumina (And) Jojoba Esters	15.00%
• Pearl I - Presperse: Bismuth Oxychloride	15.00%
• ZnO-C-NJE3 - Kobo Products: Zinc Oxide (And) Jojoba Esters	15.00%
• BYO-NJE3 - Kobo Products: Iron Oxides (C.I. 77492) (And) Jojoba Esters	2.50%
• BRO-NJE2 - Kobo Products: Iron Oxides (C.I. 77491) (And) Jojoba Esters	0.60%
• BBO-NJE2 - Kobo Products: Iron Oxides (C.I. 77499) (And) Jojoba Esters	0.25%
• Methyl Paraben NF - International Sourcing: Methylparaben	0.10%
• Propyl Paraben NF - International Sourcing: Propylparaben	0.10%

Manufacturing Procedure

Pass premixed Part 1 through a micropulverizer or suitable equipment until color is fully extended.

Manufacturing Procedure

Mineral powder with a natural light coverage. The KoboMica S-25 gives a lightweight and transparent appearance when applied to the skin. The NJE treated Non-Nano ZnO and TiO₂ give SPF/UVA. NJE Treatment also helps the formula to adhere to the skin.
