

February 2, 2009

Dear Customers,

REACH (Registration, Evaluation, Authorization, and Restriction of Chemical substances) regulation went into effect on June 1, 2008 and the pre-registration period for phase-in substances ended on December 1, 2008.

Kobo Products is committed to meeting the legal obligations under REACH, as a manufacturer and importer. Kobo Products has pre-registered all substances that are included in our products with the exception of those that are exempt from REACH. Our EU representative for REACH is Kobo Products SAS (Labège - France).

A complete listing of the pre-registered substances and their pre-registration numbers (REACH reference number) is not available at this time. However, we can provide the numbers for specific products that you may be interested in.

If you have any questions please direct them to : reach@koboproductsinc.com
