---

## SECTION 6: ACCIDENTAL RELEASE MEASURES

---

Personal Precautions : Avoid skin and eye contact  
Environmental Precautions: : Prevent material from contaminating soil or entering sewerage and drainage systems.  
Spill response : Avoid breathing dust. Use appropriate NIOHS/MSHA approved respirator. Wear chemical gloves, goggles, and lab coat. Carefully contain spilled material without creating a dust inhalation hazard. Deposit spilled material in appropriate waste container. Wash spill area with soap and water.

**BRO-C5**

**SECTION 7: HANDLING AND STORAGE**

**Handling :**

Good industrial hygienic practice requires that employee exposure be maintained to below the recommended TLV. This is preferably achieved through the provision of adequate ventilation where necessary. When dust cannot be controlled in this way, personal respiratory protection should be employed. Follow all MSDS and label precautions even after container is emptied since it may contain residual material.

**Storage :**

Store containers closed in a cool dry place. Avoid storage in areas above 40 degrees Centigrade. Avoid direct sunlight, heat, sparks, and open flames.
