3	15.00	POMP610	Nylon-6	Ube/Kobo Products
100				

Manufacturing Procedure

- Blend Part 1 and pass through a micronizer until the color is fully dispersed.
- Heat Part 2 with stirring to 91-93°C. Maintain temperature for 30 minutes.
- Add Part 1 to Part 2 and mix until homogeneous. Stir and cool to 88°C. Add Part 3.
- Continue to mix until uniform while maintaining temperature. Fill at 85°C.

Description

This foundation uses a combination of Kobo's Sericite and ITT-Treated starch and pigments which provides the basis for the crème-to-powder texture. POMP610 gives great feel, slip, powder-after effect, and great soft focus effect due to its structure.

Notes

Active Ingredient(s)	
Titanium Dioxide	12.73%

Formulations

Product formulations are included as illustrative examples only. Kobo Products Inc. makes no representation or warranty concerning the efficacy or safety of any product manufactured using such formulations. All statements concerning the possible use of Kobo Products Inc. are for research purposes only. Responsibility for the performance or adequate testing of any product prior to sale or use of any such product lies with the manufacturer thereof.

Use of Products

Products sold by Kobo are designed, manufactured and sold for industrial use only. Prior to use of any such product for any application other than an industrial use, the user has the sole responsibility and obligation to determine the suitability of any such product for any such application.

Patent Status

Nothing contained herein shall be construed to imply the nonexistence of any relevant patents or to constitute a permission, inducement or recommendation to practice any invention covered by any patent, without authority from the owner of the patent.

Limitation of Liability

Kobo Products Inc. shall in no event, whether the claim is based on warranty, contract, tort, strict liability, negligence or otherwise, be liable for incidental or consequential damages, or for any other damages in excess of the amount of the purchase price.
