Description:

This color corrector targets and adheres to specific areas of concern adding a subtle radiance to blur imperfections. The light blue shade neutralizes dark under eye circles and hyperpigmentation creating a flawless, beautiful and even-toned complexion. This formula features LUSPLAN™ DD-DA7, a plant-derived ester that imparts barrier repair and smoothness to the delicate under-eye area. A blend of microspheres is used: MSS-500/N acts as a payoff enhancer and CELLULOBEADS D-5 provides luxurious feel during application and helps to achieve a soft finish. KoboMica SM-08 imparts a smooth, even application and good adherence on the skin. KTZ® SM EXTRAFINE DENIM provides a subtle blue shine and evens skin tone.
