	0.47	PE-48	Pentaerythritol Tetraoctanoate	Alzo International Inc.
3	7.50	POMP610	Nylon-6	Ube/Kobo Products
100				

Manufacturing Procedure

1. Blend Part 1 through pulverizer until color is fully developed.
2. Add Part 2 and blend well.
3. Add Part 3 and blend well.

Description

When this loose finishing powder is applied over your foundation, POMP610 helps to control 'oil breakthrough' by absorbing skin oil and helping foundation last all day. A blend of creamy Mica and silky Talc powders provides superior application. SS4267 helps the foundation wear and adhere to the skin, and Zinc Myristate helps the powder adhere as well as impart a creamy feel.

Formulations

Product formulations are included as illustrative examples only. Kobo Products Inc. makes no representation or warranty concerning the efficacy or safety of any product manufactured using such formulations. All statements concerning the possible use of Kobo Products Inc. are for research purposes only. Responsibility for the performance or adequate testing of any product prior to sale or use of any such product lies with the manufacturer thereof.

Use of Products

Products sold by Kobo are designed, manufactured and sold for industrial use only. Prior to use of any such product for any application other than an industrial use, the user has the sole responsibility and obligation to determine the suitability of any such product for any such application.

Patent Status

Nothing contained herein shall be construed to imply the nonexistence of any relevant patents or to constitute a permission, inducement or recommendation to practice any invention covered by any patent, without authority from the owner of the patent.

Limitation of Liability

Kobo Products Inc. shall in no event, whether the claim is based on warranty, contract, tort, strict liability, negligence or otherwise, be liable for incidental or consequential damages, or for any other damages in excess of the amount of the purchase price.
