Date: Wednesday, June 1st, 2022 **Time:** 10:00 CET - 11:00 CET

Please note this customer webinar will be accepting attendees until May 31st, 16:00 CET.

Invites will be sent within 24 hours of form submission.

Kobo's New Natural Origin Film Formers - KOBOGUARD® NATURAL 2063

Today, many scientists are devoted to developing green and sustainable chemicals. Kobo's new natural origin solutions contain a bio-based film former, from managed pine forests, dissolved in oil-soluble liquids. This ester gum is a highly hydrogenated allergen-tested resin. The solutions are concentrated at a 50% solid content, one in a volatile and the other in a non-volatile carrier. This webinar will describe the chemistry, characteristics, and formulation of these film formers.
