

NATURAL ORIGIN Specialties

Global Program

Kobo offers a wide range of specialty ingredients for the benefit of personal care formulations including Binders, Fillers, Fibers, Gellants, and Scrubbing Beads.

Kobo's Definition of Natural Origin

Kobo defines natural origin products as ingredients that are naturally derived which are likely to have undergone chemical or mechanical processing to make them commercially viable ingredients.

We offer a wide range of ingredients, such as Surface Treatments, Pigmentary Dispersions, Sunscreen Technologies, Microspheres and Specialties, of natural origin, mineral or plant-based in particular.

We have chosen to certify many of them with ECOCERT/COSMOS.

Natural Index (NI) / Natural Origin Index (NOI) following the ISO 16128 standard is available upon request.

Charcoal

Absorbent Charcoal Powder available as a powder or an aqueous dispersion; gives absorbency properties to formulas.

CHARCOAL POWDER

Name	INCI Name	NI/NOI
Powders		
CHARCOAL POWDER	Charcoal Powder	0 / 1
Dispersions

Fillers

Fillers used in emulsions, hot pours, and powders found in Skin Care, Color Cosmetics and Toiletry products. They contribute to a finished product by adding bulking properties, an enhanced skin feel, luster, shimmer, shine and often times sheen, while helping to fill in the lines on the skin so they appear less visible. They are also available surface treated.
