Description:

A buildable, blendable blush with a jelly texture that gives a natural and fresh colour effect. The rich purple shade, best suited for deeper skin tones is obtained by mixing Kobo's glossy SW dispersions which are ITT treated pigments dispersed in Synthetic wax, which are perfectly compatible with the formula base.

KOBOGUARD® 5400 IDD contributes longwear and transferproof finish. EXCEBEADS™ CS-725, a non-porous, spherical fused silica microsphere with average particle size 7 microns, improves the glide of the product so you can easily blend and spread the blush around the cheek area.

Manufacturing Procedure:

1. Mix Part 1, add Part 2 and mix.
2. Add dispersions in Part 3 and mix thoroughly.
