## Description:

A carmine free fuchsia pink eyeshadow that will for sure make heads turn in your direction. The bright fuchsia colour is obtained by mixing USFDA allowed Red 40 , in dispersion form - INBP45R40A along with 2 pearls, K-RAY® PERPETUAL SUMMIT BLUE & K-RAY® PERPETUAL SUMMIT VIOLET. The blue reflection colour of the pearls turns the brick red shade of Red 40 into Fuchsia. SW5M5, a fumed silica gellant helps to control viscosity and add shine. Two filmformers, KOBOGUARD® 5400 IDD & KOBOGUARD® MQ75ETS ensure that the formula remains non-transfer and longlasting. MSS-500W, a silica microsphere improves the texture by imparting ball bearing effect.

## Manufacturing Procedure:

1. Mix Part 1 and homogenise at 5000 RPM with Silverson round hole head for 5 minutes to disperse the Tixogel.
2. Add Part 2 and heat upto 70 degrees C.
3. Add Part 3 and 4 and mix.
