Description:

This TiO2-Free Liquid Foundation offers a smooth application and feels light on the skin. It features TTB treated pigments, that are easily incorporated, improve skin adherence and formula stability. ZnO-C-ASG3J offers opacity and a creamy feel due to ASG treatment. MSS-500W improves after feel and application and KOBOGUARD® 50AMP-G, a water phase film former, gives water resistance and long wear.

Manufacturing Procedure:

1. Add Part 2 and mix until pigments are fully dispersed.
2. Pre-mix Part 1 and add to Part 2 while mixing slowly.
3. Homogenize at 6000 rpm.
