## Description:

This medium coverage BB cream leaves a dewy and fresh finish while protecting the skin from UV radiation. It features Kobo's KoboGel™ PM Medium, a pre-dispersed color concentrate in a volatile hydrocarbon blend. It provides the medium shade to the BB cream, and eases the manufacturing process. MTMX80MZCM and PM1P70T7 provide protection against UV radiation. KOBOGUARD® MQ60DM increases wear time by forming a light, yet strong film. CARESS® BN09 provides the soft feel, increases coverage, and contributes to the dewy finish.

## Manufacturing Procedure:

1. Combine Part 1 and propeller mix until uniform.
2. Premix Part 2 and add to Part 1 under propeller mixing.
3. Add Part 3 to Parts 1 and 2 under propeller mixing.
4. Add Part 4 to batch under homogenization.
5. Premix Part 5 and slowly add to batch under homogenization.
6. Add Part 6 to batch under homogenization. Mix until uniform.

## Active Inaredient(s):

Zinc Oxide	10.98%
Titanium Dioxide	2.21%
