## Description:

This lip gloss offers high coverage without tacky feel. It features PT1 pigmentary dispersions in low viscosity Phenyl Trimethicone, that provide shine and ease the manufacturing process. The combination of esters provides shine, spreadability and moisturization: COSMOL™ 222, SALACOS® 334, SALACOS® 5418V. NOMCORT® HK-G is an oil phase gellant that is used as thickener. KOBOGUARD® 5400 IDD is an oil phase resin that provides long wear. HL7M5, fumed silica dispersed in Hydrogenated Polyisobutene, increases formula viscosity.

## Manufacturing Procedure:

1. Combine Part 1 and mix until the pigments are fully dispersed.
2. Heat to 75°C and pour into components.
