Description:

This lip gloss features Kobo's KTZ® G INTERVAL VIOLET pearl to give the lips a subtle iridescence. The addition of SW dispersions intensifies the hot fuchsia shade. Also included is Plandool™-G, a plant-derived lanolin alternative ester. This paste provides excellent gloss due to its high refractive index, as well as a moist emollient feel when applied to the lips. KOBOGUARD® 5400 CCT helps to enhance adhesion of the formula onto the lips. PM WAX 82 is a combination of waxes used to structure the formulation. CARESS® BN15 is added to the formula for superior softness and tactility, spreadability, adherence, and long-lasting color effect.

Manufacturing Procedure:

1. Combine Part 1 and heat to 85° C while prop mixing.
2. Begin to cool and add Part 2.
3. Pour into lip gloss components while still warm.
