Description:

This highlighter formula is presented in a concentrated waterless stick format. Easy to carry, easy to apply, it will give illumination and a youthful glow. The secret ingredient is KOBOPEARL® EF-8, a surface treated mica specialty, that is incredibly effective at relatively low usage levels in giving great coverage and light reflection at the same time. The formulation also contains PM WAX 82 providing structure, KOBOGUARD® HRPC, a resin in wax format, for longer wear and MSS-500/20N, a 20 micron average particle size spherical silica for great slip and vanishing effect upon application, without unnecessarily thickening the formula. KTZ® ARUBAN CORAL, KTZ® INTERVAL RED and K-RAY® SM SNOW combine to give the beautiful pink color for illumination on all skin tones.

Manufacturing Procedure:

1. Mix Part 1, add Part 2, heat to 95 °C, until all solids are melted.
2. Add Parts 3 and 4, mix till homogeneous.
3. Pour at 95 °C into mold and leave to cool at RT.
